Finding your perfect dress

One of the biggest, most important decisions you will make for your wedding day is your choice of dress.

You need to consider:

- Which styles suit your shape
- Traditional white or colour?
- Time of year & location
- Do you have a theme?
- Your budget
- Your personal style

That's a lot to take in when you set off to the bridal store. Why not spend some time with me before you start your search?

I can offer you impartial, friendly and professional advice to help you narrow your search, taking into account all of these factors and more besides.

Where do you start?

- * A colour and style analysis will help you to focus on the shades and styles that will flatter you.
- * A make-up lesson will give you tips on applying a natural make-up to complement your skin tone, eye and hair colour.
- * Advice on styles and colour themes for your wedding party, (including the men).
- * Your mum or future mother-in-law might appreciate some advice on choosing their outfits.
- * Treat your bridesmaids to a consultation or a gift voucher - a truly thoughtful gift.

In addition, the advice I offer will serve you well for years to come, helping you to develop a wardrobe of clothes that work for you, saving you time and money and ensuring you always look and feel fantastic!

Please call me for a FREE, no-obligation chat.
